PROFESSIONAL SUMMARY

Bilingual software developer and French–English translator — native French speaker, fluent in English. Builds and deploys secure full-stack web applications (Node.js, NestJS, React, Python, SQL) and created NovaBulletin, a live school management platform. Trained in software engineering (Power Learn Project; Generation Ghana / MEST Africa). Brings over 12 years of professional experience, rigorous handling of confidential information, and the ability to work across technical and language tasks in both English and French.

LANGUAGE CAPABILITY

FR French — Native	GB English — Fluent	Professional Translation	Technical Translation

First degree in English (Université de Lomé). Active French–English translator at the University of Ghana Translation Bureau, handling confidential administrative, academic and technical documents.

TECHNICAL SKILLS

JavaScript	**React**	**Node.js / Express**	**NestJS**
Python	**SQL / MongoDB**	**HTML / CSS**	**REST APIs**
Git / GitHub	**Render / Vercel**	**Firebase**	**WordPress**
SDL Trados	**MemoQ**	**Microsoft Office**	**Google Workspace**

Full-stack web development from database design to cloud deployment, including authentication, access control and data protection. Experienced with translation memory tools and office productivity suites for accurate, well-documented work.

PROFESSIONAL EXPERIENCE

Founder & Lead Developer — NovaBulletin (school management platform) | *Ongoing*

- Designed, built and deployed a full-stack platform managing student records, grades, report cards, attendance, fees and parent communication.
- Developed the NestJS back end and REST API; deployed to the cloud (Render, Vercel) with role-based access for five user types.
- Implemented security features including QR-code verification of report cards against forgery, one-time-code login and controlled access to sensitive data.

IT Facilitator — NSPS Capacity-Building Programme (NASPA / Zeus Atlas Limited) | *Feb – Jul 2026*

- Taught coding and IT essentials to national service personnel; prepared lessons, exercises and assessments.

French–English Translator — University of Ghana Translation Bureau | *Aug 2025 – Present*

- Translate administrative, academic and technical documents with strict accuracy and confidentiality.

Freelance Web Developer — Accra | *Ongoing*

- Build websites and web applications for businesses, including e-commerce, legal services and multi-service companies.

Software Developer (Internship) — Corextreme, Douala, Cameroon | *Jun – Aug 2024*

- Built office management tools and maintained technical documentation in a bilingual French–English environment.

Senior French & English Educator / Academic Coordinator — Liberty Lyceum, Accra | *Sept 2025 – Present*

- Manage student records, timetables and official correspondence; liaise with staff and parents in French and English.

Educator & Curriculum Coordinator — John Taylor Memorial School, Accra | *2021 – 2024*

- Designed documentation systems for academic records and administered a tech-enhanced curriculum environment.

National Examination Grader — Office du Baccalauréat | *4 years*

- Handled confidential national examination scripts under strict security, quality and consistency standards.

EDUCATION & CERTIFICATIONS

- Software Engineering Programme: Python, SQL, Full-Stack Web Development (MERN) — Power Learn Project (2025)
- Junior Web Developer Programme — Generation Ghana & MEST Africa, Mastercard Foundation GROW project (2024)
- First Degree (BA) in English — Université de Lomé (2012)
- Soft Skills Certification — M-FIT Program (Jobberman Ghana & GIZ)
